

The diagram shows a large, irregular red region labeled Σ at the bottom right. Inside this region, there is a central area with a light beige core and a brown ring. A dashed black line separates the brown ring from the red region. The text $\vec{E}=0$ is written in orange in the red region. The text $q=0$ is written in orange in the beige core. The entire red region is filled with small white plus signs.

$$\vec{E}=0$$

$$q=0$$

$$\Sigma$$
